Terminal Disclaimer

The terminal disclaimer filed on 06/09/2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,777,586 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Henry Naylor on 11/21/2008.

The application has been amended as follows:

Claims 13-19, non-elected with traverse, have been cancelled.

Allowable Subject Matter

Claims 1, 6 and 8-11 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are found to be allowable because all of the claims depend from claim 1. The limitation in claim 1 (c) "cooling the matrix to a temperature lower than about 80 C in the event that the feed matrix is at a temperature greater than about 80 C", is seen to be a novel

and unobvious limitation as all the prior art teaches the formation of an emulsion when using water as the cutting fluid, although some of the prior art teaches the lack of an emulsion ammonia is the cutting fluid, none of the prior art fairly recognized or suggest the unexpected result that this cooling process can be used to prevent the emulsion formation, and to the contrary the prior art teaches that the emulsions are stable, and fails to teach or suggest a way to either break the emulsion or prevent its formation, so that the energetic components of the process can be recovered for later use.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAMES E. MCDONOUGH whose telephone number is (571)272-6398. The examiner can normally be reached on 8:30am-5:00pm.
